**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a human and entrepreneur and I support small businesses and broadband competition. Isn't entrepreneurship and open competition the American way and the American spirit at its finest? We need local competition and the kind of innovation that small companies create. And the kind of local (American) customer service and care we all need and deserve. And only supporting oligopolies or monopolies in industries like the internet and telephony is frankly un-American.

Sonic is an amazing company. Please support them and others like them and keep local competitive internet providers alive and thriving. We need them. Fiber is the wave of the future and Sonic is building it. They are a great alternative and well priced and technologically advanced. So yay for them.
